

ADVANCED ENERGY STORAGE SOLUTIONS

Residential | Commercial | Industrial

A photograph showing a modern kitchen on the left and a white wall-mounted energy storage system on the right. The kitchen has white cabinetry, a stainless steel sink with a chrome faucet, and a wooden countertop. The energy storage system consists of a large white rectangular unit mounted high on the wall, with two smaller white units below it. Two large white battery packs are mounted on a white shelf below the smaller units. The battery packs have the Hubble Energy logo on them. The text "POWERING YOUR HOME" is overlaid in blue on the right side of the image.

AND POWER BACK UP
INDUSTRY IN SOUTH
AFRICA, SUB-SAHARAN
AFRICA AND EUROPE.**

Hubble's high performing lithium batteries span an impressive range from 1.2kWh to 100MWh, catering to residential, commercial and industrial applications, with the ability to offer bespoke solutions for unique power and monitoring requirements.

LOW VOLTAGE SOLUTIONS

HIGH VOLTAGE SOLUTIONS

Performance, innovation, partnership and agility enable the Hubble team to deliver reliable, power solutions to create a sustainable future for all.

INNOVATION

Our in-house R&D engineers and software developers design custom energy storage and monitoring solutions tailored for the renewable energy and power backup sectors.

A key innovation is the Cloudlink, a cutting-edge remote monitoring and management platform. It provides real-time and historical data, enabling the management of batteries and specific inverters. This system allows Hubble to offer accurate, remote support as well as optional proactive monitoring services.

COMPREHENSIVE SUPPORT AND TRAINING

Our local presence ensures a commitment to quality and after-sales support, with accessible customer support readily available and informative training events held regularly.

LOCAL REPAIR CENTRES

The presence of our local repair centers in Cape Town and Johannesburg, along with our extensive inventory of spare parts, guarantees swift turnaround times and localized assistance.

QUALITY

We only use the highest quality prismatic cells from leading manufacturers. This includes BYD, CATL and NMC prismatic Li-Ion cells, which are known to be the leaders in high quality lithium cells.

**HUBBLE ENERGY
IS A MEMBER OF
THE BUD GROUP**

The Bud Group is a services, manufacturing and distribution group.

A diversified group, operating across manufacturing, industrial services, minerals beneficiation and energy solutions.
